13.2.

From the each paid periodic or single investment premium or extra premium the insurance company creates the saving premium by decreasing the premium by the following administrative fees:

Investment premium (CZK)	Fees on the investment premium
up to 499,999	3.0 % of the investment premium
500,000 – 999,999	2.5 % of the investment premium

13.3.

From each saving premium the requested part is transferred to the guaranteed interest fund and/or it is converted into units representing each concerned fund. The number of units for each fund is the result of the division of the saving premium dedicated to this fund by the value of the unit valid on investment date. The number of units is calculated to five decimal places.

13.4.

Investment date is the first working day for which value of the unit is established by the administrator of the fund following value date of the premium. The date of transfer of the cash value to the guaranteed interest fund is the following date after value date of the premium. Value date of the premium is the date in which the premium was credited to the insurance company's account and clearly identified by the insurance company (i.e. put to the contract); the insurance company clearly identifies the payment in case the payment is in the exact amount, with

the correct variable symbol, with the correct specific symbol and there is no doubt about the payment reason.

light	2.5 %
classical	7.5 %
protection	22.5 %

14.2.

For each option the constant sum insured is calculated from the risk premium based on the insured risk, mainly on the insured's health state, age(-at-entry) and sex and expected insurance option duration. Saving option is the option with the zero constant sum insured.

14.3.

In case of the change of the gross premium the risk premium is changed in the same proportion. The change of the risk premium causes the change of the constant sum insured.

Article 15 – Extra premium

15.1.

15.2.

The extra premium paid by the policyholder will be used by the insurance company by the same way as the investment premium to increase the value of the contract. This increasing will be made by investment the saving premium to the funds and by increasing of the cash value of the guaranteed interest fund. If the extra premium payment will mention allocation ratio different from the allocation ratio of the contract, this specific allocation ratio will be used (only for this extra premium payment). This will be done in case the sum of the ratios will be equal the 100 %. Otherwise the saving premium from the extra premium will be allocated by the allocation ratio of the contract.

15.3.

If the allocation ratio for the extra premium payment is different, it is necessary to mention the correct allocation ration in the Message for the recipient. The recommended format of this message is e.g.: „GF: aa %, KF: bb %, BF: cc %, DF: dd %, DPF: ee %“ or „GF: aaa Kč, KF: bbb Kč, BF: ccc Kč, DF: ddd Kč, DPF: eee Kč“, resp. „Garantovaný: aa %, Konzervativní: bb %, Balancovaný: cc %, Dynamický: dd %, Dynamický PLUS: ee %“ or „Garantovaný: aaa Kč, Konzervativní: bbb Kč, Balancovaný: ccc Kč, Dynamický: ddd Kč, Dynamický PLUS: eee Kč“.

The payment of the extra premium must be made by bank transfer to the account given by the insurance company with the correct variable symbol (contract number) and without any specific symbol. The minimum level of extra premium is CZK 5,000.

15.5.

Paying the extra premium has no impact on the duty of the policyholder to pay the periodic or single premium. The insurance company will confirm to policyholder in written form the payment of the extra premium.

15.6.

The extra premium payment can't be used to settle the obligations from the periodic or single premiums without the policyholder's order.

15.7.

It might happen that funds would be merged, splitted or closed. The policyholder will be duly informed of such merge, split or closing.

16.4.

The insurance company is taking the fees connecting with the management of the insurance and investments by decreasing the number of the units. The fees are 1 % p. a. of the number of the units in each fund and the 1/12 of the fees is deducted each month.

- c) as a consequence of or in connection with military events, civil war, revolt or riots or international peace mission;
- d) before the issuing the policy by the insurance company, maximally within the first 2 months since the insurance arrangement. This limitation is not valid if the death of the insured occurs as a consequence of an accident as defined in these insurance conditions and which happens after the insurance beginning.

20.2.

The insurance company is authorised to reduce the part of the indemnity in amount of the constant sum insured by up to one half:

- a) if the insured's death occurs in connection with his/her actions which indicate that the insured has perpetrated a crime;
- b) if the insured's death occurs in connection with actions whereby the insured caused serious actual bodily harm or death to another person or otherwise grossly breached an important interest of society;

Article 21 – Extra withdrawal

21.1.

The policyholder may, at any time from after two months of the insurance duration and repeatedly during the insurance duration, request the extra withdrawal. The extra withdrawal is not possible to proceed at the moment when the saving premium is allocated into the units or at the moment when the units are disinvested because of the policyholder's request.

21.2.

The minimal withdrawn amount is CZK 5,000. If the remaining value of the contract after extra withdrawal will be less than CZK 10,000, the policyholder's request for the extra withdrawal will be considered as the surrender request.

21.3.

In the extra withdrawal request it is necessary to mention what amount and from which funds or guaranteed interest fund the requested extra withdrawals have to be done. If there wouldn't be such information, the withdrawals will be made in the same ratio as the ratio of the each value of the funds and guaranteed interest fund.

21.4.

If the insured is not as same person as the policyholder it is considered that he/she agrees with the policyholder's extra withdrawals during contract duration.

21.5.

The policyholder's request is effective as of the delivery date to the insurance company.

Article 22 – Surrender

22.1.

The policyholder may ask the insurance company to pay out the surrender at any time after two months of the investment insurance duration. The surrender is not possible to pay out at the moment when the saving premium is allocated into the units or at the moment when the units are disinvested because of the policyholder's request.

22.2.

If the periodic premium was paid for at least the first two months of the insurance duration or if it is a single paid insurance, the policyholder has the right to cancel the insurance on his/her written request with the payment of surrender. If the policyholder is not same as the insured, the insured's agreement with the surrender payment is also necessary. If this agreement is not in the surrender request it is recognised as the day of delivering the day when such agreement will be delivered to the insurance company.

22.3.

The basis for the surrender calculation is the value of the contract. For the calculation of the value of the contract it is used the number of the units as of the policyholder's request delivery date, the value of the units valid as of the disinvestment date and guaranteed capital as of the surrender request date. Disinvestment date is the first working day for which value of the units is established by the administrator following the delivery date.

22.4.

The surrender value is dependent on the insurance contract duration and the surrender is given as the % as mentioned in the following table:

Insurance duration	Surrender
1 st year	95 % of the value of the contract
2 nd year	96 % of the value of the contract
3 rd year	97 % of the value of the contract
4 th year and more	100 % of the value of the contract

Article 23 – Consequences of the premium non-payment
23.1.

Due to the investment premium non-payment in the due dates the investment insurance is not suspended.

23.2.

If the periodic investment premium on the periodically paid contract has been paid for 2 months, or there is no fully paid single premium, and if the value of the contract is higher than CZK 10,000, if some of the next periodic premium was not paid as of the due date, or if the single premium is not still fully paid in the due period, nor in the period given by the insurance company in the reminder for premium payment, the following date after date given in the reminder the insurance will change to the investment insurance with reduced value of the contract (insurance with paid-up status) and without the policyholder's duty to pay the periodic or unpaid single premium. The insurance company's right for the still not paid periodic investment premium is terminated by this day. The insurance company's right for the payments of the extra premium remains valid.

23.3.

If the periodic investment premium has not been paid for 2 months or if there is no paid single investment premium and in both cases the value of the contract is lower than CZK 10,000, the following date after date given in the reminder the insurance will be terminated with the right for surrender payment.

By this day the risk premium is transformed to the investment premium and the right of the insurance company to the gross premium remains unchanged.

24.1.2.

In case the policyholder will pay the debt on the risk premium in the period given by the insurance company in the reminder for premium payment, the insurance is changed back to the previous option. The insurance company has the right for the risk premium for the whole period as there was no insurance option change.

24.1.3.

The insurance company has the right to pay the debt on risk premium from the value of contract by disinvestment of the relevant number of the units from the funds and by decrease of the guaranteed capital in the ratios of their values as of the insurance option change date if such operation won't decrease the value of contract below the amount of CZK 5,000.

24.2.

The right of the insurance company for the investment premium is increased in such way the due premium remains the same.

24.3.

In case it is stipulated different then saving option, the withdrawn of processing of the sensitive personal data of the insured/policyholder will cause the automatic change of the insurance to the saving option. The change happens as of the date of withdrawal, at least at the date of delivery. In this case the insurance company has the right to the periodic risk premium till the end of the insurance term or the right to the single risk premium till the next anniversary date, depending on the type of premium.

In this case the investment insurance is prolonged for the next year (new insurance period) and it can be made repeatedly.
